What to Know Before You Purchase

Before placing your order, here are a few important reminders:

- Lincoln Empowered courses offer auto-graded and teacher-supported options, making either of them ideal for independent learners.
- Lincoln Learning Solutions is a curriculum provider. We're not a school and do not issue credits upon course completion.
- Be sure to check with your local school district or education authority to confirm that your selected courses meet the credit requirements for your child's academic plan.
- Every state has different homeschooling regulations, so we strongly recommend reviewing your state's guidelines before purchasing.

Homeschooling with Lincoln Learning means flexibility, quality, and now, rewards.

We're proud to support you and your learner on this educational journey.
